

BIOLOGICAL WASTE DISPOSAL

The University of British Columbia | Health, Safety & Environment

**GENERATOR TO
COMPLETE THIS
SECTION ONLY**

GENERATOR: _____
PI: _____
ROOM NUMBER: _____

WASTE CONTENT (Please ✓)

UNREGULATED BIOHAZARD

Low risk biohazard materials that can be cremated, instead of incinerated or hydroclaved

- Uncontaminated animal / tissue (for cremation) Fruit flies (uncontaminated)

REGULATED BIOHAZARD

*Medium – high risk biohazard materials that **must** be incinerated or hydroclaved*

- Contaminated animal / tissue
Contaminant: _____ Autoclaved Risk Group 1
- Human tissue Autoclaved Risk Group 2
- Blood & Body Fluids¹ Other insects
Insect: _____
- Sharps² Other³ _____

NOTES:

¹Human or Animal

²ALL scalpels, blades, needles, regardless of source / use

³Contact Health, Safety & Environment

HSE use only:

Weight _____ kg Date _____
